On Wednesday, I had the opportunity to speak at a TechAmerica Homeland Security Committee [1] breakfast. I enjoyed meeting with colleagues in industry about addressing core information sharing challenges and how best to work together to accelerate the implementation of the information sharing environment. It?s great to see so many professionals dedicated to improving our homeland and national security ? and committed to improving the way we do business.

Some follow-up points:

- I?d like to invite attendees and others to visit our discussion board [2] to share, discuss, and vote on ideas and questions.
- Also, please check back to www.ise.gov [3] in the near future for more information on how the Information Sharing Environment is engaging with our Industry Partners.
- Finally, don?t forget to sign up for email alerts [4] to stay apprised of developments in the information sharing environment.
